

TOOL LIST FOR CHIP CARVING COURSE

Below is a list of the tools recommended for the Introduction to Chip carving course. Students need not purchase any tools and are welcome to use PFW's hand tools. We have found that if students work with their own hand tools they have a better learning experience. The vendors, brands and models listed below are merely suggestions based upon the experience of PFW but by no means are the only high quality tools or vendors.

- Two chip carving knives. These are already included in your course fee; please **do not duplicate** purchase. Below is the link to the Hock Tools website.

[Hock Tools Chip Carver No. CKC100 and Stab knife No. CKS125](#)

- Combination Square, 12" Starrett- Gradation 4R, Satin Chrome finish, hardened head

[Tools for Working Wood](#)

Reasonable quality compass

- Sliding T-Bevel
- .5mm mechanical pencil
- Inexpensive metric rule, 150mm (aprox 6")
- Inexpensive plastic T-square, 12"
- A medium and a fine ceramic sharpening stones, [such as these](#).
